

Anybody Else

Verse 1

Can you deny that everything's been a lie?
Can you explain why you've been causing this pain?

Pre-chorus

Take that frown off your face and smile
Cause we will be stuck in this place for a while

Chorus

Is there anybody else in this world?
Is there anybody else around here?
Is there anybody else in this world?
Is there anybody else around here?

Verse 2

Can't you agree that we share an enemy
Don't you understand or is your head buried in the sand

Pre chorus

Chorus

Bridge

And I've been telling you
That we're on the same side
But you're repelling me
Can't you see its suicide

Chorus

Is there anybody else x4
