

E-Safety Live Online Safety Briefings

Bringing the Latest in Online Safety to your Doorstep

Delivered by the UK Safer Internet Centre, and funded by the European Commission, Government Equalities Office, as well as BT, Sky, Virgin and TalkTalk these are FREE events aiming to help all professionals safeguard young people on the internet.

Over the last **2 years** we've ran **138 briefings attended by 4,000 professionals** and **99%** of those who submitted evaluations told us they felt better equipped to protect children they work with online as a result of attending.

These briefings last 2 hours and have the latest e-safety information – for emerging trends and technologies, to new resources and sources of support, as well as legal and law enforcement changes that safeguarding professionals should be aware of. What's more, we will provide you with access to a Resources Area after the event where you can access all of the information.

Our Tour of the UK is Coming to a Location Near You

Date: Monday 1st of February 3pm – 5pm

Address: Council Chamber, County Hall, Bythesea Road, Trowbridge, BA14 8JN

This event is for teachers, social workers, youth workers, police, adoption and foster care professionals, and any others working with young people.

“Thank you for a very informative and up to date briefing. This is something that I think every school should have a representative at and I am glad that I had the opportunity to attend.”
