Outdoor Learning	Audience	Details	Cost
Improve fitness, learn practical skills and benefit local communities			
Wildlife conservation: Bat walks, talks, wildlife activities, countryside management and practical conservation sessions such as tree planting, coppicing, woodland management etc.	School pupils and students	Half and full day sessions are available at various sites, please contact us at countryside@wiltshire.gov.uk or visit www.whiltshirehealthyschools.org/sustainability and follow the links to view out wildlife sites.	Use of our sites is free but for staffed sessions charges apply, please contact us for details
Tailored activities: Seasonal outdoor sessions can be adapted to suit school grounds or our country parks and local nature reserves.			
Access to green spaces: We can provide free access to local green spaces within safe walking distance of some schools, including country parks for schools to run activities themselves.			

The latest details of this programme will be published at www.wiltshirehealthyschools.org/sustainability.
Schools are welcome to book onto any items above.

This programme of events supports schools if they want to complete their Learning for Sustainability Award (visit the webpage for details) and even provides support that will help you to progress with Eco Schools.

If you have any queries, comments or suggestions, please contact learningforsustainability@wiltshire.gov.uk.
