Naughty bug challenge

Badge design competition
for primary schools in Wiltshire

Wiltshire Council
Where everybody matters

Bad bugs

We are keen to spread the word, not germs, throughout Wiltshire. Bugs are becoming smart and changing so that medication, such as antibiotics, is less effective against them.

What can we do?

As individuals we can play a part in helping to conserve these drugs and avoiding infections by:

- Keeping up to date with vaccinations

- Ensuring the sneeze etiquette is followed – sneeze into a tissue, or the bend of the arm; bin the tissue and wash your hands after sneezing

- Good hand washing at the right times – before meals, after playing and after touching animals and going to the toilet

- Spread the word that we all need to play our part in conserving our antibiotics for really bad infections

Spreading the message

One way of spreading the message is a competition for primary schools to design a badge. The winning designs will be emailed to all primary schools in a printable style.

In addition, the winning entries will receive a glow and show kit, designed to show how germs are spread throughout the environment.
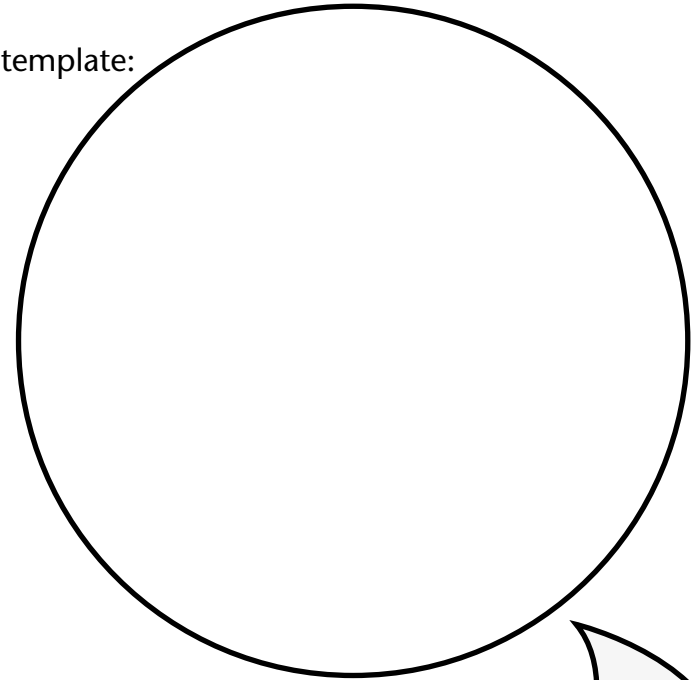

Guidance and rules of the competition

There will be three categories:

a) Hand washing

b) Antibiotics or

c) Naughty bugs

The category you are entering must be clearly marked (overleaf), otherwise there is a danger all your hard work will not be recognised.
