"The training helped us make decisions about mental health support that are tailored to our school's needs and there was time to clarify ideas through the support of a dedicated coach, and deep dive into our provision and support."

Hannah Woodhouse, Moorlands Primary School in Huddersfield

"The training has been an invaluable way to draw together all my ideas and initiatives about having a whole school approach to Mental Health. I have learnt a lot through the modules offered and have enjoyed the way in which they are a mixture of practical tips, modelling and academic research."

Senior Lead from a college in East of England

"By pulling together everything we were already doing as a school community, and making a few small, but impactful changes, I was able to make sure that we are fully covering the eight aspects of a whole school approach to mental health and wellbeing. The school now has an improved support offer, and the training has been hugely helpful in identifying areas where more work is needed over the next year."

Charlotte Read, Bosmere Junior School, Hampshire
